A box from one place

Every product in a regional box comes from makers in that one region of New Zealand. Nothing from anywhere else. Sixteen regions to choose from, so you can gift the place your client is based, the place your team calls home, or the place you want them to visit next.

For the office

Send each branch a box from its own region, so Dunedin gets Otago and Hamilton gets Waikato. A gift like that needs no explanation when it arrives.

For the client

A box from where they are based, or from the region they grew up in. People talk about a box from their own backyard, and they remember who sent it.

For the region

Every product comes from small businesses in the region you choose, so your gift supports a maker down the road from the person opening it.

OUR HERO

Christmas Gift Box

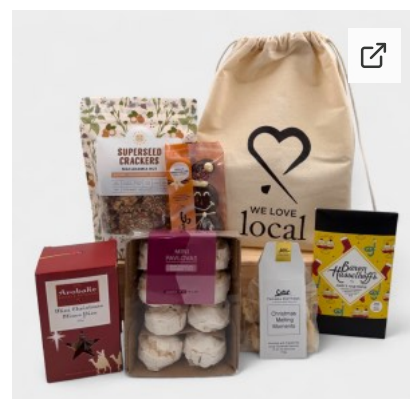

The hero of the range, and the one most companies order.

FOR BIG LISTS

Festive Treats Care Package

The same local makers at a friendlier price per gift.

SMALLEST GESTURE

Santa Gift Bag

A smaller thank-you for long lists and event giveaways.

Order early, ship later

Confirm your order and we hold the stock. Our Christmas-themed gift boxes start shipping in early November and leave whenever you say.

Easy bulk order process

Names, addresses and a message per person. We address every mailer with the recipient's name and write every card by hand.

Stock held for you

Once you confirm, the boxes are yours. No substitutions unless you ask for them.

Shipping from early November, while stock lasts

At peak we pack hundreds of gifts a day, so a long list is no trouble. Packing slots still fill from early December, so earlier is safer.

CHRISTMAS
RANGE

Ways to make it yours

Two things are yours to change. What the box says on the outside, and what goes inside it.

01 Branded sleeve

A printed sleeve in your colours wraps the box. Your logo goes on it, and so does whatever you want to say. Your values, a thank you, a welcome to the team, or all three. Most suppliers put your name on a ribbon. A sleeve gives you a page to talk to the person opening the box.

We write it with you and you approve a proof before printing. Sleeves are ready a few business days after that, and we can move faster when you are up against a date.

FOR EXAMPLE

50 gifts → **\$90 + GST**

200 gifts → **\$300 + GST**

There is nothing to commit to and no ongoing fee. Order branded gifts whenever you need them and pay for each order the same way.

Your sleeve covers one design in one box size, and each design is priced separately. A Christmas version alongside your everyday one counts as a second design, and gifts sent in more than one box size need a sleeve for each size.

See your logo on a sleeve before you spend anything

Send it over and we return a mockup in different colourways within 24 hours.

02 Built around your budget

Plenty of our boxes already come in more than one size, so there is often something in the range that suits your budget without changing a thing. Tell us what you want to spend on each gift and how many you need, and we come back with two or three that fit.

If you have something more tailored in mind, we build that too. A box put together from scratch, or a collection drawing on the best makers from around the country rather than one region. Swap anything out along the way: no alcohol, no coffee, gluten free, vegan, or the one thing somebody will not eat. Certified diets are checked rather than guessed.

Mix formats in one order too. Wooden crates for leadership and kraft boxes for everyone else, on the same invoice.

Either way, come and talk to us.

■ SMALLER TOUCHES

Their name by hand

Every card is written by hand and every shipping box addressed by hand. Send the list of names and we do the rest.

Gift postcard

Your logo or artwork can also go on a little card tucked in with the treats, for branding inside the gift rather than on it.

Your own merch

Send us your gear and we build the box around it. Smaller items work best: brochures, cards, keep cups, drink bottles.

Choose your packaging

Pick the format first. The sleeve or the print is sized to fit whichever you choose.

Wooden crate

01

Slatted pine and meant to be kept once the treats are gone. Choose it when presentation matters.

Our hero

Kraft cardboard box

02

Choose it when the budget needs to stretch. More product value per dollar at volume.

Best at volume

Cotton drawstring bag

03

Your logo printed on the reverse for runs of 50 or more. Choose it when recipients have to carry the gift home themselves.

Where the money goes

Every box sends money to a small producer: 200 of them so far, and \$4 million between them.

What your order means

Our makers are small. A large order can make a real difference to them and their local staff.

How far it reaches

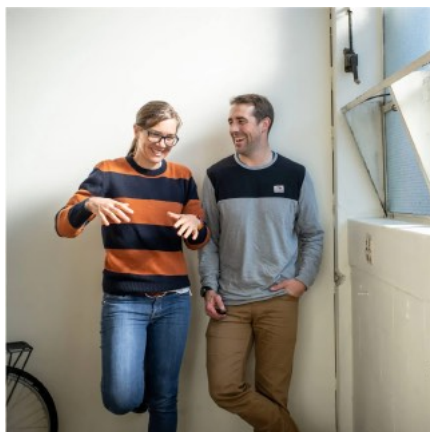

A single Christmas order reaches many producers across the country, and we can tell you how many.

Something to pass on

Ask and we will write up the makers behind your order: who they are, where they are, and what they make.

"A gift worth the money, AND an investment in small businesses."
